Park Overview

Shanghai Zhangjiang High-tech Park

Established in **July 1992**,
Planning area: **79.7 km²**,
The most dynamic & innovative
national-level hi-tech park in China.
To build a world-class livable science
and technology city.

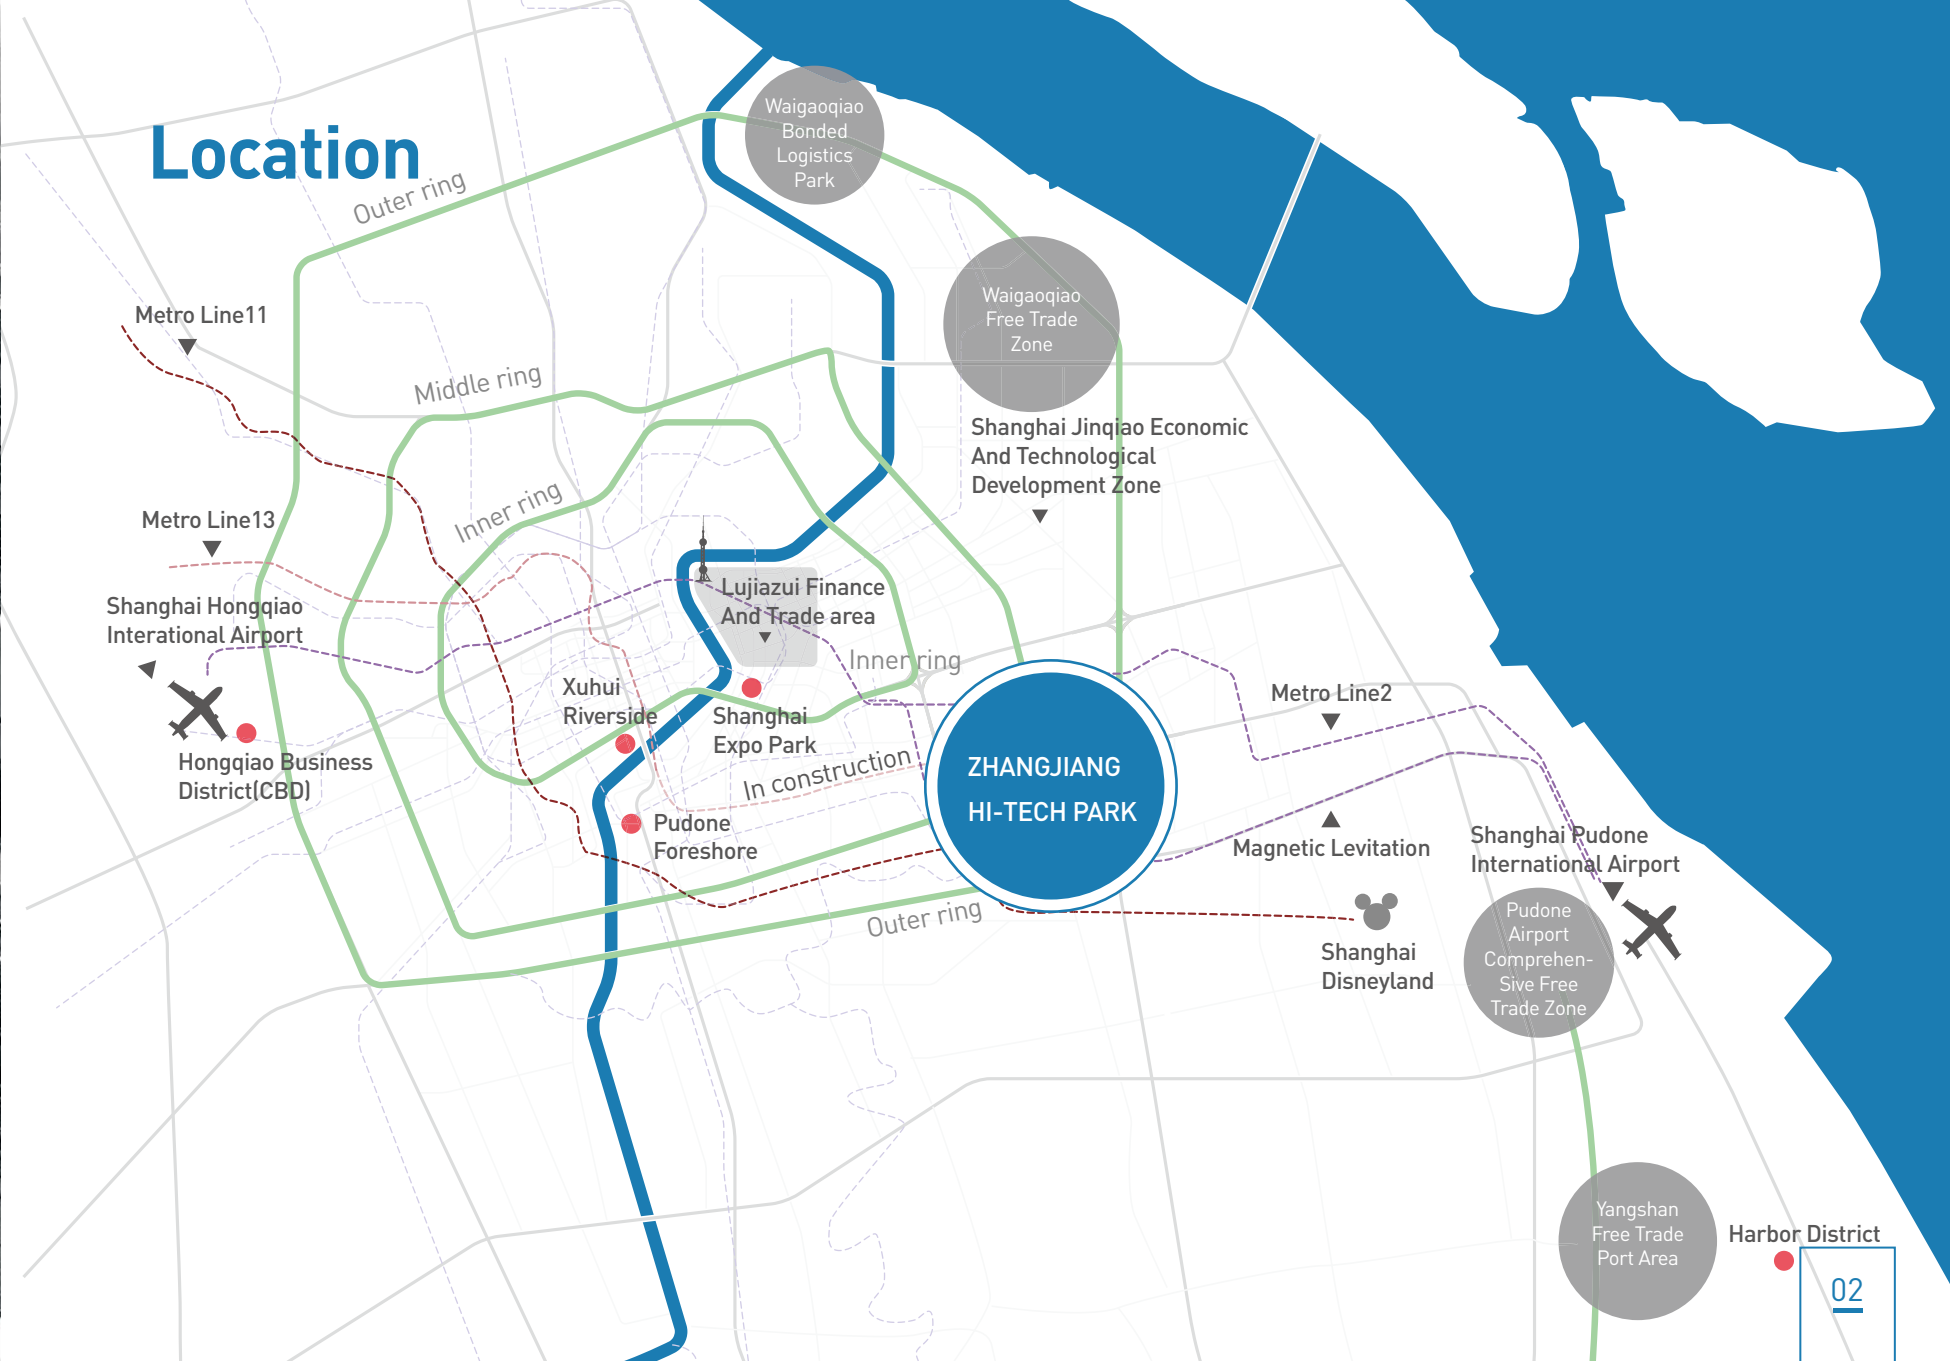

National Strategy

An essential role in Shanghai's
development as a technological and
scientific innovation center with global
influence

Zhangjiang Comprehensive National
Science Center

Integrated development of National
Innovation Demonstration Zone and
Shanghai Pilot Free Trade Zone

Location

Industries

Core Industries:

Integrated circuit:
the best industrial chain in China

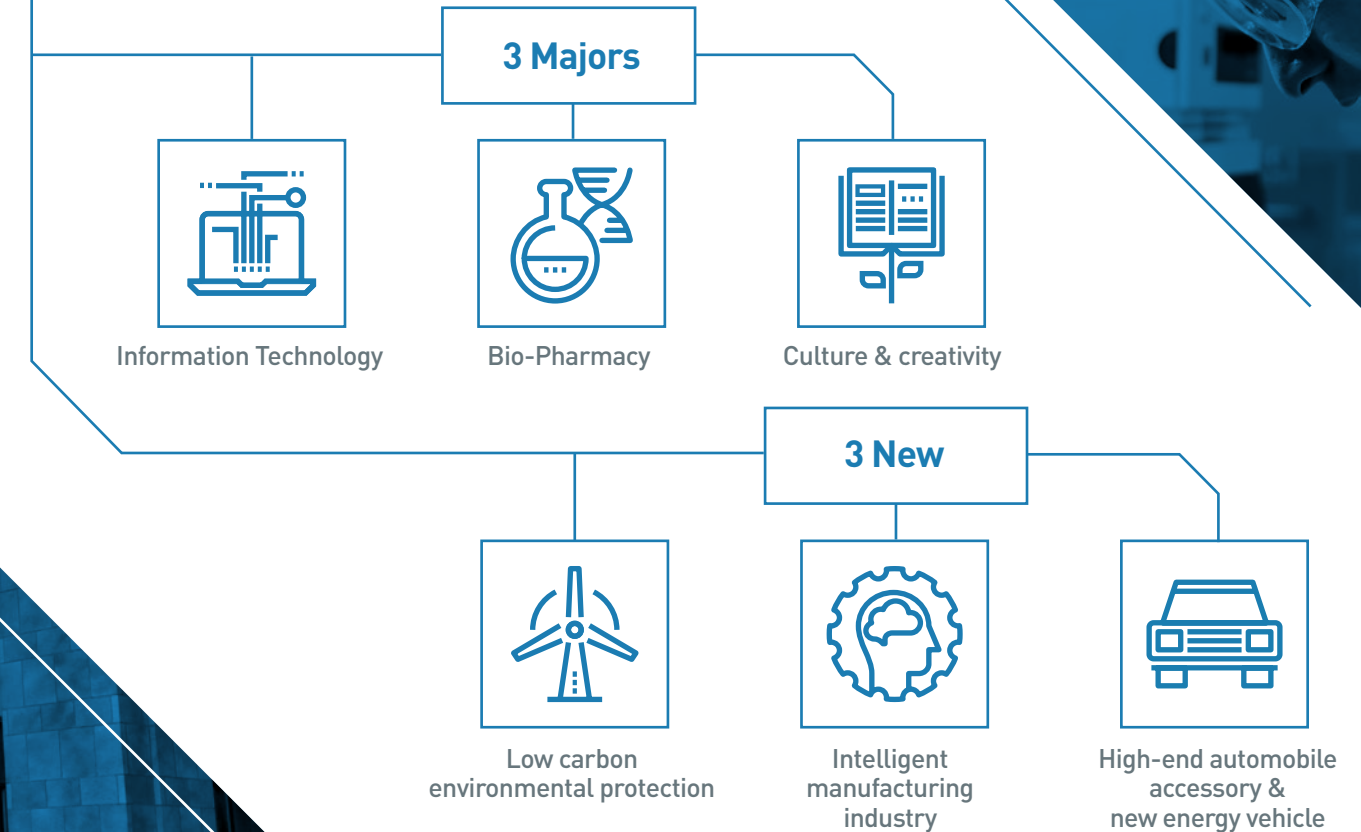

Software & information services:
An important source of growth for software industry in China

Biopharmaceuticals:
use innovation to activate life force

"THE THREE MAJORS AND EMERGING INDUSTRIES"
LEADING AS CORE COHESION

A Large Pool Of Innovative Resources To Build Innovative Zhangjiang

China's Top Talents Gather Here

The greatest talents in science and technology offer intellectual support for our R&D growth.

- 109 experts of the “National One Thousand Talents” program
- 107 experts of the “Shanghai One Thousand Talents” program (20% of the total in Shanghai)
- 23 experts of “Pudong One Hundred Talents” (over 70% of the region).

RECRUITMENT
PROGRAM OF GLOBAL EXPERT

National

Shanghai

Pudong

A Cluster Of Innovative Resources

Zhangjiang boasts a great number of scientific facilities;

- **71** science and technology public service platforms;
- Over **400** R&D agencies, including over **60** national and municipal R&D agencies;
- **133** multinational corporation R&D centers;
Baidu (China), Lenovo Group and other famous companies, universities and research institutes establish their R&D centers at Zhangjiang.

71

science and technology public
service platforms

400

R&D agencies

133

multinational corporation
R&D centers

+ MAJOR BASIC SCIENTIFIC INSTALLATIONS

Shanghai Synchrotron Radiation Facility,
National Center for Protein Science Shanghai,
Shanghai Supercomputer Center, etc.
High-concentration of major science and
technology infrastructure.

+ PUBLIC SERVICE PLATFORMS

Strong public services, efficient
operational management

Zhangjiang is home to 71 science and
technology public service platforms.

Zhangjiang has a high concentration of
dominant biomedical, integrated circuit,
software enterprises, including 27 on
the designated municipal platform, 19
on the biomedical platform, 5 on
the integrated circuit platform,
and 2 on the software
platform.

+ MULTINATIONAL CORPORATE R&D CENTERS

AstraZeneca, Roche, etc. multinational
corporate R&D headquarters;
Build an important pool of global innovation
resources to concentrate them in the park.

+ UNIVERSITY AND RESEARCH INSTITUTES

Shanghai Advanced Research Institute (Chinese Academy of Sciences),
Shanghai Institute of Materia Medica (Chinese Academy of Sciences),
Chinese Academy of Sciences Shanghai Branch,
ShanghaiTech University, Fudan University Zhangjiang Campus,
College of Information Security Engineering of Shanghai Jiao Tong University,
Shanghai University of Traditional Chinese Medicine,
Shanghai Film Art Academy,
Shanghai University of Medicine & Health Sciences, etc. 17 research institutes.

Optimization Of The Innovation System To Build Open Zhangjiang

Advantages Of The Integration Of National Innovation Demonstration Zone And Shanghai Pilot Free Trade Zone

+ ZHANGJIANG CROSS-BORDER TECHNOLOGICAL INNOVATION SUPERVISION CENTER

Keep security first, 365 ×24 hrs,
uninterrupted operations
6-8 hours to complete customs
clearance

+ PILOT SYSTEM OF DRUG LICENSE HOLDERS

Pioneer domestic pilot system
of drug license holders to
encourage biomedical research
and innovation activities.

+ FINANCIAL REFORM INNOVATION

In the Pilot Free Trade Zone, we
offer financial services compliant
with international practices

- RMB convertibility under capital accounts
- Free trade account
- Cross-border bilateral RMB capital pool
- Centralized Operation of Foreign Exchange

Complete And Essential Innovation
Resources To Build

Entrepreneurial Zhangjiang

Creation of entrepreneurial environment

Diverse, internationalized environment for the incubation of innovation

- Ranked No. 1 in Shanghai in terms of quantity, concentration and diversity of incubators with the most varied and perfect innovation chain.
- 58 incubators, 400,000m² of incubation area.
- Famous international incubators including Plug&play, Sino-Israeli innovation centers, etc.

Multi-layer science & technology financing system

Supported by the Shanghai Equity Exchange Center (Zhangjiang OTC), 4 science and technology banks, over 10 finance security institutions, over 20 banks, over 150 venture capital institutions.

Found The Most Perfect Environment To Build **Vigorous Zhangjiang**

Perfect living environment

An excellent place for living and business

Full of activity 24 hours a day.

Convenient transportation, several subways lines including Line 2 and Line 13 run through the park;

Shuguang Hospital, Shanghai International Medical Center offer diversified medical services;

250,000 m² of apartment buildings, providing 27,000 employees of 1800 companies with inexpensive residence.

No. 2 High School of East China Normal University, Shanghai Foreign Language School (East), SMIC Private School, Shanghai Zhangjiang Group School offer high quality education;

Changtai Square, Huizhi Square, Zhanxiang Center, Tianzhijiaozi Entrepreneurial Community, etc.

Well-developed business district as well as cultural and leisure activities make the lives of entrepreneurs brilliant!

Park Culture

Merge science and technology with culture
Science & technology culture - imbue Zhangjiang with energy.

'Encourage success and tolerate failure'
is the culture of Zhangjiang.

Vision

Best driving force for innovation and business start-up

Greatest concentration of science and technology innovation resources

Most effective commercialization of innovation results

Most flexible science and technology innovation system

Perfect ecological environment for innovation

“To create a leading international science and technology innovation park”
